

These notifications summarise key regulatory matters, to inform members of regulatory changes, or incidents which contain learning opportunities which are considered to be of interest. The information below has been provided in good faith and should be reviewed individually by recipients, who will determine its relevance to their own operations.

A number of other organisations issue regulatory notifications or similar documents which may be of interest to IMCA members. Where these are particularly relevant, these may be summarised or highlighted here. Links to known relevant websites are provided at www.imca-int.com/links. Additional links should be submitted to webmaster@imca-int.com.

Members are advised to read the source documents and to seek detailed advice from stakeholders such as the Flag Administration(s) and classification societies for their vessels where they consider that information contained in a regulatory notification is relevant to their operations. The IMCA policy and regulatory affairs team can also be contacted for further advice at info@imca-int.com.

New EU Regulation regarding measuring, reporting and verification (MRV)

On Friday 4 November, the European Commission adopted Regulation 2016/1927 to provide further guidance regarding the implementation of Regulation (EU) 2015/757 (MRV Regulation). The new Regulation lays down templates and technical rules for the submission of monitoring plans, emissions reports and documents of compliance pursuant to MRV regulation.

See Regulation 2016/1927 here:

http://eur-lex.europa.eu/legal-content/EN/TXT/?uri=uriserv:OJ.L_.2016.299.01.0001.01.ENG

A compliance guidance document by IMCA will follow shortly.
