

Medical Examination of Divers – Middle East & India Initiative

Information note [IMCA D 20/01](#), issued in July 2001 (revised January 2020), advised members of the requirements for doctors who undertake annual medical examination of divers, in light of the UK Health & Safety Executive (HSE) withdrawal of recognition of doctors operating outside the UK.

Subsequently, twelve members in the Middle East & India region agreed jointly to recognise a number of doctors to conduct diver medicals to the standard cited in IMCA D 20/01. The mutually recognised list of doctors was publicised via information note IMCA D 10/02, updated by D 09/03, D 07/06, D 12/06, D 06/09, D 08/10 and D 05/12. Twenty-three diving contractors in that region have now further updated their list of jointly recognised doctors and have asked IMCA to publicise the attached note.

While IMCA is not in a position to approve or recognise doctors, it welcomes this contractor initiative and is pleased to publicise the agreement, a copy of which is attached.

This list supersedes all previously published lists.

3. In developing this list, the above-listed diving contractors have used guidance passed on by IMCA – the International Marine Contractors Association – via its information note IMCA D 20/01 – *Medical examiners of divers*. However, it is recognised that IMCA is not in a position to approve individual diving doctors.
4. This joint recognition of the above-listed doctors will continue until such a time as an alternative arrangement has been made regarding the approval of diving doctors.
5. The above-listed diving contractors welcome the development of an approval scheme by the Diving Medical Advisory Committee (DMAC) and the Medical Subcommittee of the European Diving Technology Committee (EDTCmed) as set out in guidance note [DMAC 29 Rev. 2 – Approval of Diving Medicine Courses](#).
6. The above listed diving contractors hereby ask IMCA to circulate this note to its members for their information.
